We wish to recruit a Senior Science Technician for Ealing Fields High School, which opened to its first intake of students in September 2016. In September 2020 our school will have students in Years 7 – 11, and we have now moved to our **brand new permanent building** in Northfields, Ealing. The main purpose of the role is to **lead the development of technical and practical support in the Science department** at Ealing Fields High School, and this is an exciting opportunity for an experienced science technician to support the setting up of the science facilities in the new building.

We are ideally seeking to appoint a technician for up to 35 hours per week (term time only) however we welcome applicants interested in either **full-time or part-time** positions as hours and role may be negotiable for the right candidate.

We offer:

- Excellent relationships within a strong team
- On-the-job learning and development opportunities
- Membership of the Local Government Pension Scheme

Successful Candidates will be:

Proactive, approachable, calm and professional. S/he will have excellent communication skills and a high level of personal organisation. The post-holder will need to be flexible in their approach to working hours and have commitment to the values and ethos of the Trust.

Ealing Fields High School, Ealing

Ealing Fields High School was opened as a Free School in 2016, and became part of the Twyford CE Academies Trust on 1st September 2017. Ealing Fields has quickly assimilated the same systems and resources as the established Twyford Trust schools (William Perkin and Twyford CE High Schools, both of which are Ofsted 'Outstanding'). Ealing Fields is the smallest of the Trust schools, with only 120 in each year group and therefore has a very compact community identity. The school now has five year groups (7 - 11), totalling 639 students, and the staff community, though still small, is very positive and highly motivated. The school moved to its new permanent location in Little Ealing Lane in September 2020.
